

PhD Supervisor list 2016-17

Cardiovascular Epidemiology Unit

Name	Area of Interest	Contact
Professor John Danesh	Genetic, biochemical and lifestyle factors in cardiovascular disease	hs428@medschl.cam.ac.uk
Professor Simon Thompson	Biostatistics; epidemiological methods; health economic evaluation; cardiovascular diseases	sgt27@medschl.cam.ac.uk
Dr Adam Butterworth	Genetic epidemiology of cardiovascular disease; evidence synthesis	asb38@medschl.cam.ac.uk
Dr Emanuele Di Angelantonio	Prevention of cardiovascular disease; cardiovascular disease epidemiology	ed303@medschl.cam.ac.uk
Dr Stephen Kaptoge	Applied statistical methods particularly in relation to chronic disease epidemiology involving time to event analysis, linear mixed models, generalized linear mixed models, and meta-analysis	skk22@medschl.cam.ac.uk
Dr Angela Wood	Statistical methodology for epidemiological research (particularly missing data approaches including multiple imputation); Prediction of cardiovascular risk; chronic disease epidemiology; Epidemiology of adverse pregnancy outcomes	amw79@medschl.cam.ac.uk
Dr Rajiv Chowdhury	Evaluating individual and combined roles of environmental (diet and toxic metals), biomarkers (bone minerals and fatty acids), and their associated genetic factors that may influence the risk of chronic non-communicable diseases in various ethnic populations	rc436@medschl.cam.ac.uk
Dr Dirk Paul	The goal of the Integrative Human Genomics Team is to identify and validate causal pathways in cardiovascular diseases and related disorders	dsp35@medschl.cam.ac.uk

Longitudinal Cohort Studies on Ageing

Name	Area of Interest	Contact
Prof Carol Brayne	Healthy ageing, cognitive decline and dementia, and psychosocial factors in chronic disease	carol.brayne@medschl.cam.ac.uk
Dr Louise Lafortune	Cognitive decline and dementia, frailty, healthy ageing, health technology assessment	ll394@medschl.cam.ac.uk
Dr Tine van Bortel	Global Health, Mental Health and overall Wellbeing	tv250@medschl.cam.ac.uk
Dr Shirlene Badger	Qualitative medical sociological research in the fields of genetics, mental health, cancer, obesity, and women's health studies.	sb491@cam.ac.uk

Centre for Cancer Genetic Epidemiology

Name	Area of Interest	Contact
Professor Doug Easton	Genetic epidemiology, methodology, breast / ovarian cancer	douglas@srl.cam.ac.uk
Dr Paul Pharoah	Genetic epidemiology, breast / ovarian cancer, gene-gene interactions, predictors of cancer survival	paul1@srl.cam.ac.uk
Dr Antonis Antoniou	Genetic epidemiology and risk model development for familial cancers, genetic epidemiology of BRCA1 and BRCA2	a.antoniou@srl.cam.ac.uk
Dr Alison Dunning	High-throughput laboratory processes for genetic epidemiology and Fine-scale mapping of genetic loci	alisond@srl.cam.ac.uk

General Practice and Primary Care Research Unit

Name	Area of Interest	Contact
Professor Jonathan Mant	Prevention & treatment of cardiovascular disease, particularly stroke, in primary care settings; epidemiology of stroke	jm677@medschl.cam.ac.uk
Professor Stephen Sutton	Area of interest: Behaviour change, determinants and interventions, particularly in relation to smoking cessation, physical activity and medication adherence	srs34@medschl.cam.ac.uk
Dr Rupert Payne	Primary care research, informatics	rap55@medschl.cam.ac.uk
Dr Fiona Walter	Cancer diagnosis, genetic medicine, psychosocial factors and primary care trials	fmw22@medschl.cam.ac.uk
Dr Robbie Duschinsky	Research has primarily focused on children, families and theories of human behaviour, integrating approaches from psychology, sociology, history and philosophy	rd522@medschl.cam.ac.uk
Professor Simon Griffin	Research into preventing the growing burden of diabetes, obesity and related metabolic disorders by translating epidemiological knowledge into preventive action, and evaluating the effectiveness of different preventive approaches.	ProfGP@medschl.cam.ac.uk
Other		
Name	Area of Interest	Contact
Prof Theresa Marteau	Behaviour and health specialising in identifying the most effective ways of helping people to change bad health habits	tm388@cam.ac.uk
Prof Kay-Tee Khaw	Chronic disease epidemiology	kk101@medschl.cam.ac.uk
Dr Esther van Sluijs	Behavioural epidemiology of young people's activity behaviour	ev234@cam.ac.uk
Dr Shirlene Badger	Qualitative medical sociological research in the fields of genetics, mental health, cancer, obesity, and women's health studies.	sb491@cam.ac.uk
