# 2014/15 Report

- 43% of deaths in participating practices were pre-identified by the register
- 86% of those who died on the register died in their PPC
- Only 18% of people on the register died in hospital

# Successes

- Increased choice discussion
- Admission avoidance
- Deaths in usual place of residence up to 51 % over the whole area. In 2010 this was 41%

# Challenges

- GP engagement
- Fast track funding issues
- Inter-provider tensions
- Increased referrals

# Future

- Expand for all care home residents
- Consider the 2%
- Expand co-commissioning
